DIGITAL AUDIO DM2K CARRYPACK SYSTEM

All Mobile Video's Digital Audio DM2K carrypack system is the perfect companion to AMV's HD Tapeless HD video carrypack. It features the same quick, efficient and cost-effective "case becomes furniture" design, perfect for productions either not requiring a television truck or in locations which would make a TV truck logistically difficult. AMV's DM2K system can accommodate 24-to-48 mic pre-amplifiers, 48 channels of MADI digital outputs and 48 channels of digital MADI inputs. Multitrack recording is supported to ProTools or Tascam X48 recorders (optionally).

• AUDIO BENCH •

Case becomes furniture design (plus two flip-up & pull-out wings for additional space)

1 Yamaha DM2000VCM 96 input mixer

> 24 ch of mic/line level inputs, plus 24 ch line level inputs, plus 34 ch analog outputs, 48 ch MADI digital outputs, 48 ch MADI digital inputs, or

> 48 ch mic/line level inputs (w/3 Aphex 1788 mic pre-amps, optional), plus 34 ch analog outputs, 48 ch MADI digital outputs, 48 ch MADI digital inputs
